

SportReach Global Intern Program

Overview

SportReach seeks to partner with ministries around the world to provide college age young adults the opportunity to get a real feel for world missions. Our goal is to provide insight to planning and organization of Abroad missions as well as to spend time overseas working in a missionary capacity. Our prayers are that God would work in the lives of these interns and foster a desire for full time world mission's work.

Timeframes

*Fall semester (September – December)
Spring semester (January – May)
Summer semester (June – August)*

Opportunities

US Based - Abroad Missions Trip

The intern would be responsible for planning and coordinating a mission's trip abroad. They would work in the pre-trip team preparation and discipleship, logistical planning for the travel, and tracking of team member support raising. The intern would also be responsible for co-leading the team on the overseas trip and ensure a well run trip program. On return, the intern will help in summarizing the evaluations and remaining financial matters. Also, since the intern is US based they will help in other areas of the Abroad ministry as well as other areas in SportReach.

Overseas Based - Partner missions work

The intern will be placed with a partner of SportReach located somewhere overseas. Opportunities and locations may vary depending of the time of year. The intern will be reporting to someone at that partner mission for their

assignments. The intern will be representing SportReach but may be involved in other mission work when a SportReach team is not on sight.

Finances

The intern will be responsible for raising/providing the funds to support themselves during their internship. Ministry related expense would be paid or reimbursed by SportReach.

College Credit

Where applicable, SportReach will work with the interns' college to provide the necessary documentation so that the intern can receive credit for their work.

Application Process

Each applicant will go through the following application and interview. This process will help to determine that the applicant has a skill, ability, personality and spirituality fit for the program.

- *Complete written application*
- *Interview with Director of Missions Abroad*
- *Interview with Executive Director*
- *Interview with abroad partner (If applicable)*
